ILUSTRACIÓN | ILLUSTRATION TAVO MONTAÑEZ

A 110 años de su nacimiento, no sólo la historia del arte la concibe como un icono, sino también nuestra cultura la reconoce como un gran pilar del siglo XX.

110 years after her birth, she is not only considered to be an icon by art history, but our culture also acknowledges her as one of the main pillars of the 20th century.

BRAIN GAMES?

Whistleblowers and former lab members suggest a star neuroscientist routinely manipulated data, compromising a planned NIH stroke trial and key Alzheimer's research

In 2022, the U.S. National Institutes of Health (NIH) placed a large bet on an experimental drug developed to limit brain damage after strokes. The agency committed up to \$30 million to administer a compound called 3K3A-APC in a study of 1400 people shortly after they experience an acute ischemic stroke, a perilous condition in which a clot blocks blood flow to part of the brain.

By **Charles Piller**

The gamble seemed warranted. Lab studies, most by a longtime grantee, prominent University of Southern California (USC) neuroscientist Berislav Zlokovic, had generated promising data. A small safety study of the drug, sponsored by a company Zlokovic co-founded called ZZ Biotech, was also encouraging. Analyses of data from the phase 2 trial hinted that the treatment reduced

the number of tiny, asymptomatic brain hemorrhages after stroke patients received either surgery to remove the clot, the clot-busting drug tissue plasminogen activator (tPA), or both.

For many years, scientists have tried to reduce the brain cell death, bleeding, and inflammation that can follow a stroke, some of which results from disruption of the blood-brain barrier—a system of tiny blood vessels that delivers oxygen and nutrients

ADIÓS, JULIO

LA ÚLTIMA CENA

Dentro de Disney Springs, de Walt Disney World, se ubica el restaurante Morimoto.

ILUSTRACIÓN POR TAVO MONTAÑEZ

MITSUHARU MORIMOTO

“En mi última cena me gustaría cocinar para mí. Me gustaría saberlo antes para prepararme mi propia miso, pues hacerla toma tres meses. Ese día, en una gran mesa haré sashimi con mizuna o cualquier otro pescado de temporada. Habrá sashimi de pescado, mi propia sopa miso, encurtidos y arroz. De beber, un Morimoto Sake.”

¿QUIÉN ES?

Este chef celebridad ha conquistado al mundo a través de sus emplatados de gran nivel estético y sus preparaciones donde el umami se encuentra con la cocina fusión. Pero antes de ser tan mediáticamente reconocido gracias a su participación en Iron Chef y Iron Chef America, Morimoto comenzó su carrera elaborando cocina *kaiseki*, en Hiroshima. Hoy su imperio de restaurantes reúne quince franquicias por el mundo.
