All these trees are one being,
called by one name:
Pando.
This old tree's name means *I spread*
in the old language of Latin.
And spread Pando has.

All the trees in Pando look similar, change
colors at the same time in the fall, and taste
the same to animals.

Pando began life as a **seed**.
He was
smaller than you
smaller than a mouse
smaller even than an acorn or a pea.
He was a seed no larger than
a single speck of pepper.

Aspens can be male or female. Pando is a male
and is often called "he."
